Marco Trejo Lara

Front-end Developer

Front-end developer with 1 year of experience working with technologies like Javascript, SCSS, HTML, CSS, MYSQL, React and some Python. I am looking to work with any in-state or an international company where I can get that opportunity to contribute with my knowledge and to continue growing personally with different coding challenges.

EXPERIENCE

Brainnest, Germany — *Front-end Developer*

September 2022 - September 2022

- Built an NFT website
- Worked on the DOM to increase logic
- Tested features with the DOM to ensure they perform correctly

California Institute of Arts and Technology, — *Front-end Developer*

September 2021 - April 2022

- Tested features with Python and work on small projects
- Worked on creating data with MY SQL and calling them back
- Touched on PHP and MYSQL connectivity
- Created a static website with HTML and CSS
